

## Design Details

Block template: HST-020033

Total number of HST squares: 100

Knit or crochet your HST squares using a Corner to Corner (C2C) construction technique. To determine how much yarn you need for your project, make a test square using the same yarn or a yarn similar in weight to the yarn that you're going to use for your project. Multiply the number of HST squares in your design by the weight of your test square to get the total weight of yarn required for your project. Always purchase or dye a little more yarn than required to make sure you have enough to complete your project.
